EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Gordon on 08/30/05.

The application has been amended as follows:

In claim 4, line 4, the word "ths" has been deleted and the word -- the -- has been inserted.

In claim 8, line 3, after the word "and", the word -- said -- has been inserted.

In claim 8, line 5, the word "a" has been deleted and the phrase -- said at least one -- has been inserted.

The following is an examiner's statement of reasons for allowance: The prior teaches a dowel jig having a base with an internal planar area and at least one hole in the planar area; however, the prior art fails to teach the combination of "a leg at each end of said base extending generally transverse to said base" and "a foot at the outer corner junction of each said base end and each said leg, the lower surfaces of both said feet lying in a common plane that is parallel to said base internal planar area, wherein upon said lower surfaces of said feet being placed on a flat surface of a member said at least one hole will be transverse to the member flat surface".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
